SRW LG Low Gloss Paver Seal

SRW LG Low Gloss Sealer is a protective barrier that minimizes the absorption of water and stains into paver, brick, block, stone, masonry and concrete surfaces. It produces a clear, low-gloss finish that can be used on interior and exterior surfaces. LG Paver Seal's active ingredients seal sand joints from washout, ant infestation, and weed growth. It extends the life of your pavers against elements which can deteriorate your pavements appearance, such as rust, oil, dirt, pool chemicals and salt, while adding UV resistants against fading or yellowing. LG can also be used a "cure and seal" compound on newly poured concrete. Easy installation and low maintenance. Coverage: 100-150 sq. ft. per gallon, exterior pavement coverage (based on an 1/8" joint spacing). Quantity may vary depending on surface and application.

SRW HG High Gloss Paver Seal

SRW HG High Gloss Paver Seal is a high solids, water-base sealer offering superior gloss, greater long-term protection and easy application. It quickly forms a hard clear protective film that is tough, dust proof, and non-yellowing. This product is ideal for interior and exterior applications on new and existing floors, pavers, stamped and decorated concrete surfaces. Provides protection from deicing salts, staining and other harmful environmental elements. Coverage: 100-150 sq. ft. per gallon, exterior pavement coverage (based on an 1/8" joint spacing). Quantity may vary depending on surface and application.

SRW PS Penetrating Paver Seal

SRW PS Paver Seal is a clear penetrating water-based siloxane sealer. Perfect for repelling water and dirt, and protecting against spalling and freeze/thaw damage on retaining walls and patios. It enhances and retains the original appearance of pavers, brick, block, stone, masonry and concrete surfaces with a UV resistant finish. Its special formula make it ideal for both horizontal and vertical applications. PS Paver Seal extends the life of your paver against elements which can deteriorate the appearance, such as rust, oil, dirt, pool chemicals and salt. Coverage: 150-200 sq. ft. per gallon. Quantity may vary depending on surface and application.

SRW EF Efflorescence Cleaner

SRW EF Efflorescence Cleaner is a mildly acidic product which acts quickly to clean and dissolve efflorescence (white mineral deposits) and rust stains from pavers, retaining walls, brick and concrete surfaces.

SRW CD Cleaner & Degreaser

SRW CD Cleaner & Degreaser is concentrated liquid cleaner that removes grease, oil, dirt and rust from paver surfaces. The fast working, heavy duty product dissolves stains and rinses clean with water.

SRW SR Slip-Resistant Paver Grip

SRW SR Slip-Resistant Paver Grip is an additive you add to SRW LG and HG Paver Sealers to improve the slip-resistance on pavers and concrete surfaces. This additive is lightweight and clear, and will not discolor.

Sealer Sprayer

SRW Products now carries the hand-held SP35C Sealer Sprayer featuring high-grade Viton® seals throughout. They are built to handle the aggressive chemicals and rugged field conditions of the construction industry. The 12" internal pump chamber builds up pressure faster with fewer strokes. This unit features an extra long 65" chemical hose rated at 300 psi. A steel spring prevent kinking. The working capacity is 3.5 gallons and maximum pressure is 42 psi with working pressure at 10-35 psi.

Slit-Foam Roller

SRW Products now carries a slit-foam roller to help make your paver maintenance project even easier. This slit-foam roller remains spongy (not compressed) during your project making for smooth application for textured surfaces. This slit-foam roller is recommended for use with the SRW Paver Seal product line.
