WETCAST SEAL™

Wetcast Seal™ formulas are designed specifically for wetcast surfaces and will offer the best protection and enhancement. We offer three varieties to shield against extreme conditions.

Wetcast Seal Products

- W-PSX Penetrating X-Treme
- NEW W-LGX Low Gloss X-Treme
- W-HGX High Gloss X-Treme

See Back Page for Product Details
**PRODUCT TIP**

**SRW SEALERS**

If you need to clean your sprayer and other tools after sealing with a solvent-based sealer, we recommend using XY Xylene. It is a fast-acting solvent that thins and dissolves acrylic sealer to aid in tool clean up and overspray. For water-based sealers, use warm soapy water to clean tools.
